RE: PRELIMINARY ANTIDUMPING DUTY DETERMINATION  
OF GRAY PORTLAND CEMENT AND CLINKER FROM  
VENEZUELA (A-307-803)

1. The Department of Commerce published on November 4, 1991, its preliminary determination of sales at less than fair value regarding gray portland cement and clinker from Venezuela.

2. The products covered by this investigation are gray portland cement and clinker. Gray portland cement is a hydraulic cement and the primary component of concrete. Clinker, an intermediate material produced when manufacturing cement, has no use other than grinding into finished cement. Oil well cement is also

included within the scope of this investigation; microfine cement is not included within the scope of this investigation.

3. Gray portland cement and clinker are currently classified under subheadings 2523.29 and 2523.10 of the Harmonized Tariff Schedule (HTS). Gray portland cement has also been entered under HTS subheading 2523.90 as "other hydraulic cements." The HTS subheadings are provided for convenience and customs purposes. The written description remains dispositive as to the scope of product coverage.

4. For further reporting purposes this case has been assigned investigation number A-307-803.
